

With over 17 years experience in fire retardant liquid coatings and fire retardant treated lumber and plywood industry.

Fire Retardant Coatings of Texas

Introduces: FX Guard Coatings

FX Lumber Guard

FX Lumber Guard – water based liquid coating and highly effective post-treatment interior fire retardant - fireproof coating, when the treated material is subjected to an open flame, it will reduce the flame spread of the treated material and extinguish itself when treated properly. It passed ASTM E84 test and meets NFPA 255 701 & ANSI / UL723

FX Fabric Guard

FX Fabric Guard – water based liquid penetrant for use on most cotton fabrics, denim, terry cloth, muslin & canvas such as drapes, wall coverings, table cloths & furniture.

FX Tree Guard

FX Tree Guard – water based liquid treatment for live Christmas trees, Dried Brush and Hay / Straw. Protect your home and family this year from fire do to your Christmas tree fire and grass fire.

FX Guard Coatings are often chosen because there odorless, colorless, non-toxic, non-hazardous to the environment, animals and children, they're easy application and easy cleanup.
