THE ONLINE TICKETING AND EVENT MANAGEMENT SOLUTION.

FEARTICKET

Flexible Pricing & Quantity

Setup simple & complex ticket with varying pricing for each timeslot. Also, you can set a separate seating capacity for the timeslot in the same schedule.

Shared Pooling

Share the seating capacity among two or more types of tickets. In other words FEARTICKET lets you control the sales of Ticket-A and Ticket-B in a combined capacity.

Upgrade Orders

"Upgrade Order" allows ticket buyers to upgrade existing orders to add more Add-ons or change the Schedule and pay additional charges as per their choice of schedule or extra added items.

Dependent Tickets

Dependent tickets feature helps you to control the sales of a (child) ticket which is depend on another (parent) ticket. Set multiple conditions to manage dependent tickets.

Powerful Marketing Tools

Drive ticket sales and expand your reach with integrated marketing tools. Reach a broader audience without incurring additional costs.

Quick Event Migration

Easily transfer events from any ticketing platform to FEARTICKET for quick setup and seamless management. Simplify your event planning process with FEARTICKET.

Efficient Box Office

Experience lightning-fast ticket check-ins and FREE in-person ticket sales with the FEARTICKET Organizer App, reducing wait times and ensuring smooth entry for attendees.
